

## Master's Thesis Approval Form

Thesis title (Proposed):

\_\_\_\_\_

Student: \_\_\_\_\_

Student ID: \_\_\_\_\_

Honours result: CGPA ( )

Masters result: CGPA ( )

Advisor: \_\_\_\_\_

### General Requirements for Thesis

The research presented must meet the current standards of the discipline, and the thesis must demonstrate how the research advances knowledge in the field.

- Students must give three seminar presentations for the successful thesis completion
  - Seminar-I (Thesis approval).
  - Seminar-II (Progress report).
  - Seminar-III (Defense).
- A plagiarism report (not more than 20%) must be attached to the final thesis and signed by the supervisor and head of the department.
- The thesis must also be enlisted in the department database and published in any public domain (preprint server: Research Square/medRxiv, etc.).
- The thesis must include the originality statement signed by the supervisor and thesis approval committee.
- Supervisors indicate on the Nomination of Examiners and Thesis Submission Form that the thesis research has complied with all ethical standards.
- Students, supervisors, and collaborators must have written intellectual property agreements regarding thesis research.
- These agreements must be consistent with the requirements of thesis examination and availability in the public domain.
- Students must be aware of any limitations or approvals required for research publication, including the examination and publication of a thesis.
